Specialty Pharmacy

UPS Temperature True[®] Packaging Services

Med 300

UPS Temperature True[®] Packaging provides packaging for your temperature-sensitive products at a competitive cost. We offer packaging options to help protect products with a range of time and temperature requirements. Each solution has been tested to maintain certain temperature levels throughout the UPS U.S. domestic network, helping to give you peace of mind that your products will reach their destination as intended.

The Med 300 is a simple refrigerated shipping system that uses evaporative cooling provided by an easy-to-activate self-contained cooler.

- Coolers are built into container lids with no gel packs
- Five sizes available
- Systems are portable and can be stored at room temperature
- Lightweight and simple to assemble
- Replacement cooling engines available

Med 300 Solutions

TEMP. RANGE	DURATION	PART NO.	SIZE	CAPACITY (L)	PAYLOAD DIMENSIONS (IN)
